

Clinically Dosed, Quad Source Testosterone Booster

All-new EPIQ™ QUAD TEST™ is a max-strength testosterone enhancement formula with key ingredients backed by four human clinical trials. This powerful formula is designed to boost free testosterone within the normal healthy range, decrease serum cortisol and enhance athletic performance.▲

Ashwagandha: A powerful herb with long-lasting traditional use. It has been shown to significantly lower serum cortisol levels.▲

Auddy et al., 2008. *Journal of the American Nutraceutical Association*. 11(1):50-56.

Rhodiola crenulata and Ginkgo biloba: Shown in a 7-week human clinical study performed at a prestigious university to maintain a peak testosterone-to-cortisol ratio and enhance athletic performance.▲

Zhang et al., 2009. *Chinese Journal of Integrative Medicine*. 15(3):177-183.

Shilajit: A unique organo-mineral compound shown in a clinical study to significantly increase total serum testosterone levels in 90 days.▲ In another study, shilajit was shown to boost ATP levels in just 15 days.▲

Biswas et al., 2010. *Andrologia*. 42(1):48-56.

Boron citrate: A powerful agent that supplies a precise dose of boron shown in human clinical research published in the *Journal of Trace Elements in Medicine and Biology* on men to increase free testosterone and decrease estrogenic effects in just seven days.▲

Naghii et al., 2011. *Journal of Trace Elements in Medicine and Biology*. 25:54-58.

Tribulus, maca root & Pedalium murex: EPIQ™ QUAD TEST also supplies all of these other premium ingredients you want, but in a precise combination you won't find anywhere else.

Clinically Shown to Boost Test and Reduce Estradiol▲

EPIQ™ is:
