Stress Ease®

CINNAMON

Skullcap may sound scary, but it is actually one of the best herbs for **relieving tension and promoting relaxation**.* This petite (yet powerful) plant stands at about 1-2 feet tall with delicate blue helmet shaped flowers. In the wild it can usually be found growing at the edge of a stream or in a moist meadow.

Some of our favorite skullcap comes from the **beautiful Pacific Northwest**, a region with rich herbal history and an abundance of plant lovers. There the herbs are cultivated **with pristine water, fresh mountain air, and caring hands**.

We've Got the Right Stuff

We raise the bar. The quality standard of the herbs we use is hard to pronounce, difficult to meet, and it's what makes us different, better. We're not ashamed to say it. **Pharmacopoeial**: it's the only quality standard our herbalists can rely on when blending teas for your health and wellness.
