

## organic Ginger

Some of our favorite ginger comes from **Fair Trade Certified™ small organic farms** that are part of a Sri Lankan co-op formed in 2009. Not only does this ginger provide all of ginger's well-known benefits, it also **benefits the farmers** who grow and harvest it. Like all Fair Trade Certified™ farmers, they receive a premium on top of the price paid for their high quality ginger. This premium goes into a fund which is used to **improve the community**. So far, the co-op has used the funds to create a spice nursery, provide farm implements and created grants for kids to go to school.

### *We've Got the Right Stuff*

We raise the bar. The quality standard of the herbs we use is hard to pronounce, difficult to meet, and it's what makes us different, better. We're not ashamed to say it. **Pharmacopoeial**: it's the only quality standard our herbalists can rely on when blending teas for your health and wellness.
