

UNLEASH YOUR POTENTIAL®

When you're between sets of a grueling workout, there's nothing you want more than a refreshing, great-tasting BCAA sports drink that **WORKS**. Pure BCAA™ will help your body synthesize new muscle proteins and repair damaged ones for real lean muscle gains. Loaded with 5 grams of a scientifically selected 2:1:1 ratio of leucine, isoleucine, and valine – the same ratio naturally found in human muscle – Pure BCAA is designed to activate protein fusion by flooding your muscles with essential amino acids. The 2:1:1 branched-chain structure is critically important... it can be metabolized directly **in the muscles**, bypassing other bodily systems, so you can recover more quickly.

Paired with the 2:1:1 Instantized BCAA Complex is a precisely crafted matrix of electrolytes, key for hydration management to support optimal athletic performance. The EnduraPURE Blend, composed of rhodiola and CherryPURE®, helps maximize peak oxygen consumption, so you can train harder and longer while feeling less sore and recovering faster. Don't let anything stand in the way of you and your next intense workout.

DIRECTIONS Mix 1 scoop with 8 oz. of cold water. Drink during or directly following your workout, or between meals on rest days, up to 3 servings per day.
