Dymatize Elite Casein™ helps keep your muscles supplied with a steady stream of amino acids, the building blocks of muscle. Casein is a unique protein derived from milk that breaks down slowly in your digestive system, keeping you fuller longer and providing a sustained release of muscle-building amino acids. This makes casein the ideal choice any time your body goes without protein for an extended period, especially just before bedtime.

Dymatize Elite Casein™ delivers 25 grams of sustained-release protein, with 10 grams of critical Branched Chain Amino Acids (BCAAs) and glutamine/glutamine precursors per serving. We use only premium, 100% micellar casein, one of the slowest absorbing proteins available to support muscle nourishment. Smooth and creamy with an amazingly delicious taste, **Dymatize Elite Casein**™ is a great addition to your workout nutrition routine.
