

UNLEASH YOUR POTENTIAL®

## YOU WANT MAX RESULTS FROM YOUR WORKOUTS

Who doesn't? Yet how many guys bust their ass in the gym and never see the size and strength they deserve? It's discouraging. But now there's Cannabol™, and it's changing everything.

Cannabol is the new intra-workout breakthrough from Force Factor® that's specifically designed to deliver unprecedented strength and muscle growth — results you can see, not just dream about. When taken during workouts, Cannabol can significantly improve muscle anabolism, prevent catabolism, and short-cut recovery for serious gains. Simply put, you recover faster, train harder, and get bigger.

Cannabol's key ingredients have been clinically shown to increase strength in both compound and isolation exercises, boosting total overall strength and enhancing cell volumization during training.

## WHAT'S IN A NAME?

"Cannabol" is a fusion of cannibal and anabolic. Anabolic refers to the body's metabolic growth cycle. But cannibal? Well, the protein used in this formula has the same amino acid ratio as human muscle. That's part of what makes Cannabol so unique, powerful, and effective. While other intra-workout products try to one-up nature with concocted protein mixtures, Cannabol returns to the primary source, the original proportional fuel your body uses to build serious muscle. Cannabol contains zero carbs and calories. It's stimulant-free and it tastes great!

## THE IMPORTANCE OF MUSCLE CELL SIZE AND ANABOLIC ACTIVITY

Intra-workout supplementation with Cannabol™ is crucial to building extreme size and strength. Here's why:

- ✔ Cannabol limits muscle degradation — that means you're maintaining your strength longer for more reps. When the other guys have to stop, you don't.
- ✔ Cannabol's cell hydration formula increases volume and discourages muscle breakdown, so you're building muscle and keeping it.
- ✔ Cannabol contains a hefty dose of L-Ornithine to eliminate strength-diminishing waste products for faster recovery and incredible endurance.

So what do you get when you limit muscle breakdown, encourage growth, preserve strength, and speed recovery? **You get to be a legend.**

## SUPPLEMENT FACTS

Serving Size: 1 Level Scoop (14000 mg)  
Servings per Container: 30

	Amount per Serving	%DV*
Calories	0	
Total Carbohydrates	0 g	
Riboflavin	2 mg	118%
Niacin	10 mg	50%
Vitamin B6 (as pyridoxine hydrochloride)	2 mg	100%
Folate (as folic acid)	250 mcg	63%
Vitamin B12 (as cyanocobalamin)	8 mcg	133%
Calcium (as dicalcium phosphate)	60 mg	6%
Phosphorus (as dicalcium phosphate, magnesium phosphate, and dipotassium phosphate)	83 mg	8%
Magnesium (as magnesium phosphate)	10 mg	3%
Sodium (as sodium citrate)	24 mg	1%
Potassium (as dipotassium phosphate)	57 mg	2%
Choline bitartrate	50 mg	**
Anabolic Amino Acid Matrix	11636 mg	**
Muscle Optimization Complex		**
Instantized L-Leucine (4000 mg), L-Lysine, L-Phenylalanine, L-Threonine, Instantized L-Valine, L-Histidine HCl, Instantized L-Isoleucine, L-Methionine		
Ultimate Cell Protection Compound		**
Betaine Anhydrous (1500 mg), Electrolyte Blend (Dicalcium Phosphate, Dipotassium Phosphate, Sodium Citrate, Magnesium Phosphate, Electrolytic Co-Factors (Choline Bitartrate, Vitamin B6, Folic Acid, Vitamin B12))		
Waste Detoxification Blend		**
L-Ornithine HCl, Niacin, Riboflavin
