

**USAGE:** Probiotic supplement for cats and dogs. Mix the following quantity daily into food or water:

For **cats** and **small dogs**: 1/8 to 1/4 teaspoon (0.5 to 1.0 g)

For **medium size dogs**: 1/4 to 1/2 teaspoon (1.0 to 2.0 g)

For **large size dogs**: 1/2 to 1 full teaspoon (2.0 to 4.0 g)

Or give as directed by your pet's veterinarian.

**Pet Dophilus**® is a probiotic formulation designed to help your pet maintain a balanced intestinal microbial ecosystem in order to promote intestinal health and immune function. In addition to probiotics, Pet Dophilus® also contains inulin and Metabolin®. Inulin is a natural fiber that helps promote the growth of the beneficial microorganisms. Metabolin® is a supernatant powder (special blend of cell wall components and metabolites derived from the fermentation of beneficial bacteria, including *Lactobacillus* and *Propionibacterium* species), and works synergistically with the probiotic bacteria. Each gram (approximately 1/4 teaspoon) contains a minimum of 1 billion total viable cells.

For animal use only.

Keep out of reach of children and animals.
