

THE MOST POWERFUL & HARDCORE TESTOSTERONE-BOOSTING FORMULA*

Test 3X™ SX-7® Black Onyx™ is the most advanced testosterone-enhancing pill on the market today. Many testosterone-boosting pills aren't backed by a single human clinical trial. But Test 3X™ SX-7® Black Onyx™ features three powerful ingredients backed by separate human clinical trials that are actually shown to boost testosterone, decrease estradiol and reduce a key catabolic hormone.▲

How Does It Work?

Test 3X™ SX-7® Black Onyx™ has a multi-platform formula that delivers three distinct benefits. First, it increases free testosterone levels. Then, it works to optimize the testosterone-to-estradiol ratio by decreasing estradiol. Lastly, it reduces a key catabolic hormone, making it a truly complete and powerful testosterone-boosting formula.▲

Test Subjects Increased Testosterone by Over 40%

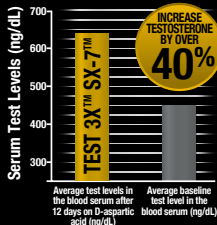

Test 3X™ SX-7® Black Onyx™ features a clinical dose of D-aspartic acid, shown to increase testosterone by over 40% and increase luteinizing hormone by over 30% while staying within the normal healthy range.▲

Boost Free Testosterone in Just 7 Days

Test 3X™ SX-7® Black Onyx™ is also formulated with a powerful and concentrated dose of boron that is shown in human clinical research to increase free testosterone and decrease estradiol in as little as 7 days. Free testosterone is the most active form of testosterone and is critical to initiating the strength-building process.▲

Decreases a Key Catabolic Hormone by 14.5%

What makes Test 3X™ SX-7® Black Onyx™ truly unbeatable is the use of the advanced ingredient *Withania somnifera*, which is shown to reduce a key catabolic hormone by an astonishing 14.5%. Test 3X™ SX-7® Black Onyx™ also delivers yacon root and olive leaf. Experience its shocking power and potency for yourself.▲

SHOCKING RESULTS FROM A CLINICAL STUDY

In one clinical study, subjects using the dose of D-aspartic acid found in one daily serving of Test 3X™ SX-7® Black Onyx™ increased testosterone levels by an impressive 40% in only 12 days!▲
