## HUMBLE BEGINNINGS

Nubian Heritage is the brainchild of two New York street vendors. In 1992, fresh out of college and without jobs, Rich and Nyema embarked on a mission to produce luxurious natural products from traditional African recipes with organic and fair trade ingredients. Today Nubian Heritage offers hundreds of culturally authentic natural products inspired by global ancient healing philosophies. Although Nubian Heritage products are no longer made in bath tubs, little else has changed: the company still makes its own products, still uses fair trade and organic ingredients and still invests in community commerce.

## HERITAGE

Neem Oil forms the foundation of Ayurveda, the ancient Indian practice of natural health. Documented for 4,000 years in Sanskrit, among Neem Oil's many benefits is the ability to hydrate and moisturize the skin while Hemp has been cultivated for skin care in China as early as 4000 BC. Fragrant Vetiver, the "oil of tranquility," is native to Asia and is known in tropical communities for its calming soothing scent. Emphasizing the ingredients' soothing properties, our package is reminiscent of the Indian Hemp leaf and celebrates India's long textile history going back over four thousand years.
