

Breathe Easy®

One of our sources of eucalyptus is from Chile, where the leaves are carefully harvested to preserve the essential oil—which is responsible for the characteristic aroma and taste of eucalyptus, which you'll notice as you steep this tea.

Our formula also includes the traditional Chinese herbal blend **Bi Yan Pian** (bee-yahn pee-yahn), which features the ancient magnolia flower. Evolved before bees existed in the world, magnolia flowers developed to encourage pollination by beetles, and have been used in Chinese and Japanese herbal traditions for centuries.

We've Got the Right Stuff

We raise the bar. The quality standard of the herbs we use is hard to pronounce, difficult to meet, and it's what makes us different, better. We're not ashamed to say it. **Pharmacopoeial**: it's the only quality standard our herbalists can rely on when blending teas for your health and wellness.

Consult your healthcare practitioner prior to use if you have low potassium levels, if you are taking corticosteroids, cardiac glycosides such as digoxin, or potassium-depleting agents. In rare cases, nausea, vomiting and diarrhea may occur after drinking teas containing eucalyptus. If symptoms persist for longer than 7 days, seek medical advice. **Do not use** this product if you have inflammatory disorders of the gastrointestinal tract or bile duct, impaired kidney or liver function, high blood pressure or heart disease; if you are allergic to plants in the daisy (Asteraceae) family, such as chamomile or echinacea; or plants in the parsley (Apiaceae) family such as fennel or coriander; or if **pregnant or breastfeeding** unless otherwise directed by your healthcare practitioner. **Not recommended for use with children under 12 years of age.**

**This is the pharmacopoeial quality standard we use because quality matters.
