
 **Health Tip:** As your child grows and develops, Calcium is the most abundant mineral found in their body, (comprising approx. 2% of total body weight), with 99% of the total calcium being found in the bones and teeth. For optimum absorption and utilization studies suggest Calcium should be combined with Magnesium, Vitamin D and Zinc. These nutrients help support and establish the very foundation for your child's structural growth and integrity.*

 **ChildLife** uses only the highest quality ingredients. **Gluten free**, casein free, alcohol free. Contains no milk, eggs, wheat, yeast, or corn. No artificial colorings, flavorings or sweeteners.

Keep out of the reach of children. Tamper Resistant: do not use if outer safety seal is broken or missing.
