DRIVEN BY INNOVATION. DEFINED BY PERFORMANCE.
 Every PERFORMIX product is driven by our TERRA Intelligent Dosing™ technology, utilizing best in class bioavailability enhancers and intelligent dosing delivery to help maximize every single molecule's potential... period. To out perform, out last and out do. TERRA Coating is an innovative Multi-Coating Matrix (MCM) technology that targets pH extended release functionality. This offers an advanced delayed release coating system designed with multiple release points to help maximize ingredient performance.

RECOVERY TIME

Standard Whey Protein Isolate: 2880 MINUTES

PRONATV: 30 MINUTES

Pronatv™ supports a supercharged 30-minute recovery time, compared to 48 hours with standard Whey Protein Isolate. The addition of our time-released ISO beads helps replenish key nutrients and extend the recovery benefits over multiple hours helping to combat muscle soreness and fatigue.

Formulated with Clean Undenatured Pronatv™ Whey
 Pronatv™ is the purest whey protein available due to its unique, clean and low temperature extraction process. Proteins are extracted from top quality hormone-free milk to preserve its properties without collecting the typical cheese residues, GMP, added ingredients and chemical agents found in the standard Whey Protein Isolate.
