For years, **EVPP<sup>®</sup>** has set the standard in the non-stimulant pre-workout category for athletes seeking optimal muscle growth and recovery. Now, Evogen Nutrition has managed to harness that technology and take it one step further with the added energy and focus you crave! With ingredients that ignite recovery and growth, **EVPP Plus<sup>™</sup>** is designed to create the perfect balance between the skin-splitting pumps of **EVPP<sup>®</sup>** while boosting energy levels with ingredients that can significantly improve strength, focus and performance. Fire up your potential with **EVPP Plus<sup>™</sup>**, the complete energized pre-workout solution.†

**WARNING:** EVPP Plus<sup>™</sup> contains Caffeine. Do not take this product with alcohol. Do not consume caffeine or other stimulants from other sources, including but not limited to: coffee, tea, soda and other dietary supplements or medications containing phenylephrine or caffeine along with this product. Always begin with 1 scoop or less, and work your way up to find your own personal tolerance. Do not exceed 3 scoops in a day. To avoid sleeplessness, do not consume within 4 hours of bedtime. Please make sure you are consuming a minimum of 3 liters of water per day.

Before consuming EVPP Plus<sup>™</sup>, always consult with your physician before using this or any other dietary supplement product ESPECIALLY if you are unaware of your current health condition or have any pre-existing medical condition including but not limited to high blood pressure, cardiac arrhythmia, stroke, heart, liver or thyroid disease, kidney, anxiety, depression, seizure disorder, psychiatric disease, diabetes, recurring headaches, pernicious anemia, difficulty urinating due to prostate enlargement, or if you are taking MAOIs or any other medications. Do not use if you are pregnant, contemplating pregnancy, nursing, prone to dehydration, or exposed to excessive heat. EVPP Plus<sup>™</sup> is only intended to be consumed by healthy adults 18-50 years of age. Do not use for more than 8 weeks at a time. It is recommended that you take at least 4 weeks off before

resuming use. Discontinue 2 weeks prior to surgery. If you experience sleeplessness, tremors, dizziness, nervousness, headaches, heart palpitations, shortness of breath, or any other adverse reactions, immediately discontinue use and consult your physician. Store in cool, dry place away from moisture and sunlight. **KEEP OUT OF REACH OF CHILDREN.**
