

THE PROBLEM WITH FAT BURNERS

Nearly every fat burner claims to deliver the same benefits: increase thermogenesis, boost metabolism, and intensify the body's demand for energy so that stubbornly stored fat can be destroyed. But too many stop there. They load you up with high-stimulant energy and forget completely about the cognitive component – the mind-body connection critical to helping you reach your goals.

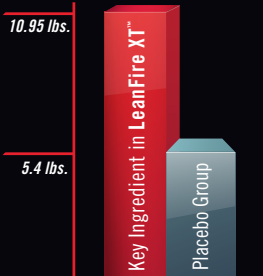

LeanFire XT™ is different. It considers the *real* needs of your body and mind as you work to burn fat and sculpt a new physique, producing clean energy while helping to reduce the nervous anxiety that too often accompanies even the best endurance boosts. It contains an explosive fat-burning thermogenic complex, unlike anything you've probably experienced, but the real magic can be found in the unrivaled Metabolic Mind Matrix.

Thermogenesis, at its core, is about raising your body's temperature to trigger and accelerate fat oxidation. But as anyone who works out knows, burning fat is more than simply a physical challenge; it's as much mental as it is physiological. A boost in energy should be paired with improved focus, premium clarity, and peak awareness to be truly useful. And that's what LeanFire XT is all about.

So stop settling for "just another fat burner," and let LeanFire XT show you how the proper dosages of hand-picked, scientifically engineered thermogenic intelligence ingredients can make a difference in your workouts.

NOW WITH DOUBLE THE WEIGHT LOSS†

LeanFire XT doesn't stop at burning fat, producing incredible energy, increasing endurance, and improving focus and clarity; It now includes a potent weight loss ingredient we call Verilean™ to help you achieve jaw-dropping body-sculpting results. In a clinical study, participants who took this key ingredient in LeanFire XT and maintained a low-calorie diet for 60 days lost an average of **10.95 lbs.** The placebo group only lost an average of 5.4 lbs. Verilean also helps reduce BMI, and ensures you burn more fat relative to muscle as part of your transformation.

†Results from a 60-day randomized, double-blind, placebo-controlled study of African green coffee bean extract (*Coffea canephora*)

DIRECTIONS

Take 1 capsule twice daily, 30 to 60 minutes before your two biggest meals. Do not take within 4 hours of bedtime.

THE IMPORTANCE OF THERMOVIGILANCE™

Whether you're trying to drop a few pesky pounds from your stomach or get lean and cut for your next figure competition, burning calories for both men and women centers around a few simple concepts. You want clear energy and motivation, mental endurance and focus, and a heightened ability to efficiently melt fat – all in a single formula to maximize results without compromise. That trifecta of benefits is exactly what the three premium blends in LeanFire XT™ deliver, in a scientific symbiosis we call *thermovigilance*.

Burning fat and sculpting a lean body necessitate increasing thermogenesis – literally producing more body heat. LeanFire XT's **Fat Incineration Weight Loss Blend** now contains safe and natural Verilean™, a highly bioavailable jitter-free ingredient clinically shown to help you lose weight quickly, reduce BMI, and most importantly, burn more *fat* relative to muscle during your workouts.

This powerful compound is combined with catechin-rich green tea leaf extract to spark the biological processes that speed metabolic function. Rounding out this blend are L-carnitine, a powerful amino acid, and cayenne pepper, which naturally increases body heat, to help you keep pace with the increased energy expenditure generated by LeanFire XT's cognitive enhancement system.

The ingredients in this system can be found in the **Metabolic Mind Matrix**, the most critical component of effective thermovigilance. Each LeanFire XT capsule contains a precise 150mg dose of caffeine, specifically engineered to stimulate your central nervous system, bolstering concentration and generating laser focus. Nothing works better than caffeine to help suppress appetite and deliver a serious jolt of energy. This increases stamina and endurance, pushing you to run that extra mile or power through that final set.

Caffeine is notorious for generating a post-workout crash, but key ingredients in LeanFire XT work specifically to mitigate this problem. To combat the energy downsides synonymous with caffeine, the innovative Metabolic Mind Matrix incorporates L-theanine, helping to eliminate the peaks and valleys of LeanFire XT's caffeine energy boost. In other words, L-theanine works synergistically with caffeine to deliver a smoother, less jittery energy unlike anything you may have felt before.

The **Pure Energy Complex** supports the physical and mental boost from the two other LeanFire XT blends in several critical ways. Yohimbine, a next-generation stimulant that encourages thermogenesis, works to enhance the effects of the Fat Incineration Weight Loss Blend. Yohimbine helps increase resting energy expenditure, which is vital to achieving the lean physique you crave, while TeaCrine® provides a controlled, stimulant-free lift in energy with premium clarity, improved focus, and virtually no crash.

SUPPLEMENT FACTS

Serving Size: 1 Capsule
Servings per Container: 60

	Amount per Serving	%DV
Peak Thermovigilance™ Triplex	721 mg	*
Fat Incineration Weight Loss Blend		
Verilean™ Green Coffee Bean Extract (<i>Coffea canephora</i>), Green Tea Leaf Extract (standardized to polyphenols, catechins, and EGCG), L-Carnitine, Cayenne Pepper (<i>Capiscum annuum</i>) (fruit) Powder, BioPerine® Black Pepper Fruit Extract		
Metabolic Mind Matrix		
L-Theanine, Caffeine Anhydrous (150 mg)		
Pure Energy Complex		
TeaCrine® Theacrine (tetramethyluric acid), DMAE (dimethylaminoethanol) Bitartrate, Yohimbine HCl		
*% Daily Value (DV) not established		

Other Ingredients: Gelatin, Dicalcium Phosphate, Magnesium Stearate, Titanium Dioxide, FD&C Red #40, FD&C Blue #1.

Keep out of reach of children. For adult use only.

Allergen Warning: Manufactured by equipment which processes products containing milk, eggs, soybeans, wheat, shellfish, fish oil, tree nuts, and peanut flavor.

Precautions: Use only as directed. Consult a healthcare professional before use if you are pregnant or nursing, have a medical condition, or use prescription medications. Store in a cool, dry place. Protect from heat, light, and moisture.

The recommended dose of this product contains about as much caffeine as one and a half cups of coffee. Limit the use of caffeine-containing medications, foods, and beverages while taking this product, because too much caffeine may cause nervousness, irritability, sleeplessness, and, occasionally, rapid heartbeat. Do not consume alcohol, drive, or operate heavy machinery while taking this product.
