Increase Blood-Flow: Enhance Performance!*

Nitric Oxide is a naturally-occurring compound in the body that plays a key role in cardiovascular and sexual health. Nitric Oxide is produced in the inner lining of blood vessels and helps to relax and dilate vessels, allowing more blood flow throughout the body. When sufficient Nitric Oxide is present in healthy males, erections occur during the normal course of intimacy.

This unique formula features L-Citrulline – an amino acid that is readily converted to Nitric Oxide within the body.* L-Citrulline improves blood flow to vital organs and enhances physical response during sexual activity.*
