PERFORMIX PRO WHEY+

We know the work doesn't end at the last rep. Our unique blend of premium proteins, combined with our tri-phase amino release, work together to enhance muscle protein synthesis for hours after you leave the gym to maximize growth and recovery.

Premium Protein Blend

Amplifying growth demands more than just whey. Our precise blend of performance proteins combines quick, moderate and slow-digesting proteins to elevate muscle protein synthesis for an extended period. We only use cold processed and ultra-filtered whey to preserve top quality and minimize protein breakdown. The diversification of our formulation allows you to maximize your absorption and your gains.

Tri-Phase Amino Release

Performix Pro Whey+ is infused with a dynamic blend of BCAA's and our exclusive Performix ISO beads. Terra Intelligent Dosing ensures a steady stream of aminos for a feeling of power you can tap into whenever you need it.

1 FREE FORM AMINO ACIDS:
absorbed instantly and stimulate muscle protein synthesis.

2 AMINOS WITHIN PROTEIN:
liberated through the body's natural digestive mechanism to stimulate muscle protein synthesis.

3 TERRA ISO BEADS:
free form amino acids are released over an extended period of time with our patented technology.
