

Directions: Take one to two tablespoons in juice or water daily. As a soothing tea, add two tablespoons to a cup of hot water.

Essence of Wild Sage is made with only deep underground source springwaters that reside in the mineral- and nutrient-rich rock and soil. These liquids are quickly activated in the body because of the important oxygenated compounds, which are the result of a special process using only steam-extracted, wild, mountain-grown sage.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
