*Ocean Fresh Organic Algae & Seaweed Blend – First used by the Aztecs in the 14th Century, the nutritional value of spirulina wasn't well known until it was called one of the "best foods for the future" by the World Food Conference in 1974. This blue-green algae is rich in antioxidants that fight free radicals and provides numerous health benefits such as bone and brain health, plus cleansing. Chlorella is a superfood packed with phytonutrients including amino acids, chlorophyll and beta-carotene. It helps boost immunity and promotes healthy skin and blood sugar modulation. Dulse is a seaweed high in vitamins and minerals that assists in digestive health, brain function and cleansing. Finally, klamath algae helps promote brain health and improved mood, plus detoxification.\**
