

UNLEASH YOUR POTENTIAL®

WHEY30™ is the new standard for quality and value.

Composed of an ultra-premium blend of high quality whey protein, scientifically engineered to help you build lean muscle, improve recovery, and preserve gains, each scoop of WHEY30 delivers 30 grams of whey protein, reinforced with 1 gram of glutamine. Together, these two key ingredients feed your body exactly what it needs after a grueling workout.

Feel confident knowing that every scoop of WHEY30 includes:

- 30 grams of high quality whey protein
- Only 160 calories and 1 gram of fat
- Just 1 gram of sugar with incredible flavors
- 1 gram of glutamine to aid recovery
- **No** fillers or unnecessary additives

MAXIMUM VERSATILITY

Because WHEY30 contains everything you want from a premium protein and nothing you don't, it's one of the most versatile weapons in your sports nutrition arsenal. Not only is WHEY30 ideal for both genders and all athletic abilities, it also works great in shakes, smoothies, and baked goods – plus it can be consumed at any time of the day.

ABSOLUTELY NO AMINO SPIKING

There are zero added amino acids in WHEY30 that are counted toward the 30 grams of protein per scoop.

ELITE PERFORMANCE HERITAGE

Force Factor was founded by former Harvard University athletes. Our products are engineered using evidence-based science, not hype, to help you intensify your workouts and achieve your goals. Years of research and development have culminated in the launch of our most advanced protein yet: WHEY30. We're confident it will be the best protein you've ever used and that you won't hesitate to incorporate it into your daily supplementation regimen. The full line of Force Factor sports supplements powers the workouts of weekend warriors, professional bodybuilders, and premier athletes, and is guaranteed to help you Unleash Your Potential.

BUY PROTEIN, NOT FILLERS

WHEY30 was formulated for a very specific purpose: to provide your body exactly what it needs to optimize post-workout recovery, *without* fillers and *without* compromise. Too many other proteins are sold by weight only, disregarding the most important element: the total amount of protein in each tub. In some cases, protein isn't even the majority of the powder you're buying.

The expert formulators at Force Factor insisted on creating the highest quality, best tasting, and greatest value protein on the market. WHEY30 is a result of their efforts.

WHEY30 contains 22.6% **more** protein per scoop than the leading competitor:

GRAMS OF PROTEIN PER SCOOP

DIRECTIONS

Mix 1 scoop with 8 oz. of cold water or beverage of your choice, varying the amount of liquid to achieve desired taste and consistency. Consume 1-3 servings per day, with 1 serving immediately following your workouts.
