- NO Proprietary Blends
- NO Underdosed Key Ingredients
- NO Banned Substances
- NO Fillers
- NO Hype
- NO Exceptions

**Just the Most Powerful Formulas Available**

**Prolonged-Release Premium Casein Protein**  
 For decades, MuscleTech® has been a leading protein brand. Built on a foundation of human research and cutting-edge science, it's earned the trust of countless consumers worldwide. Now the same research and development team has pioneered a new slow-release protein formula based on superior protein sources for longer absorption and better taste.

**8-Hour, Sustained Amino Acid Delivery**  
 Enhance your recovery with sustained nutrient release. Casein and milk protein are some of the slowest digesting proteins available. NITRO-TECH® CASEIN GOLD delivers 24g of high-quality protein taken from multiple premium casein sources, including primarily micellar casein. In fact, the protein source used in NITRO-TECH® CASEIN GOLD has been shown in research published in *The American Journal of Clinical Nutrition* to release amino acids into your bloodstream for up to 8 hours after taking it.<sup>1</sup> Because of this sustained-release property, its highly anabolic and anti-catabolic formula promotes a musclebuilding environment for longer periods of time. What's more, each enhanced serving of NITRO-TECH® CASEIN GOLD contains 10g of naturally occurring BCAAs, glutamine and precursor, and only 1g of sugar. Combined with an award-winning flavor profile, NITRO-TECH® CASEIN GOLD is as good for your taste buds as it is for your muscles!<sup>1</sup>

**The Superior-Tasting Protein Formula**

- Slow-digesting protein blend to support prolonged amino acid release to continuously feed your muscles<sup>1</sup>
- Features the most premium casein protein blend for a superior amino acid profile
- 10g of anabolic BCAAs, glutamine and precursor for better muscle protein synthesis and recovery<sup>1</sup>
- Superior cold-processed, ultra-pure micro-filtered protein blend featuring micellar casein
- Compared to typical casein powders, NITRO-TECH® CASEIN GOLD has a better texture for a superior flavor profile

TOTAL ESSENTIAL AMINO ACIDS (10g)					CONDITIONALLY ESSENTIAL & NON-ESSENTIAL AMINO ACIDS (14g)				
BCAAs (5g)			OTHER EAAs (5g)						
Leucine	2.2g	Valine	1.4g	Arginine	0.9g	Proline	2.1g	Glutamine Precursor	5.0g
