In the world of protein beverage powders, the name Nectar® signifies delicious fruit juice flavors. It means ZERO carbs and ZERO fat. It means instant mixability when mixed with water. It means a pure flavor with no strange aftertastes or hints of protein. To put it simply, Nectar® is the de facto image of quality when it comes to protein drinks.

As the symbol of protein excellence, we did not want to limit Nectar® to only fruit juice flavors. We therefore researched long and hard to find other beverage flavors that would be perfectly compatible with the high-quality standards that Nectar® has achieved. After much experimentation and discovery, we developed Nectar® Lattes. Caramel Macchiato, Vanilla Latte and the original decaf Cappuccino highlight the perfect success we had in creating these coffee-flavored protein powders. With all of the taste characteristics of a barista-made coffee and with no off-note flavors, Nectar® Lattes is sure to please the most discriminating coffee drinker.

SUGGESTED USE: Vigorously mix 2 oz of water or milk per serving (1/4 scoop) of Nectar® Lattes for 30–60 seconds. One full scoop, providing 23 g of protein, 0 g of fat and 0 g of sugar, may be mixed with 8 oz of water or milk. Note the extra calories when combined with milk. Consume the desired number of servings two to three times per day to satisfy your protein requirements. Remember, the best times for supplementing protein are immediately upon rising in the morning, after intense physical activity, such as weight training, and prior to sleep. Nectar® Lattes mixes instantly with a spoon and tastes great . . . GUARANTEED!

Notice: Use this product as a food supplement only. Do not use for weight reduction.
