

## A Unique Twist on Probiotics

ProbioSlim Advanced's superior formula combines one of the most efficacious and resilient probiotic strains with a stimulant-free, clinically researched weight loss ingredient for results within two weeks.

The innovative compound LactoSpore® helps ease symptoms associated with occasional **diarrhea, constipation, gas, and bloating**. It is scientifically engineered to survive the harsh environment of your gastrointestinal system to provide maximum digestive benefit.

Paired with this comprehensive probiotic is a patented caffeine-free **weight loss** ingredient called Meratrim® that delivers real results starting in as little as two weeks, without jitters. A concentrated cutting-edge extract from the rind of the purple mangosteen fruit, combined with key active compounds in the flower heads of the exotic East Indian globe thistle, has been shown in clinical research to help you lose weight faster and more efficiently when added to your diet and exercise regimen.†

**Take control of your digestion and your weight with stimulant-free ProbioSlim Advanced!**

**Directions:** Take 1 capsule with breakfast and 1 capsule with dinner.
