

CODE 0214

V2

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Citrulline also plays an important role in the healing process and in the maintenance of a healthy immune system.*

Citrulline is a non-essential amino acid that is an important intermediate in the urea cycle, functioning along with Arginine and Ornithine to rid the body of ammonia, a byproduct of protein metabolism. Because Citrulline is a precursor of Arginine, it provides a readily available source material for Arginine production, thereby helping the body maintain healthy Arginine levels.

SUGGESTED USAGE: As a dietary supplement, take one or two 1/4 level teaspoons 1 to 2 times daily between meals. Consider taking this product in combination with NOW® L-Arginine, P-5-P and AAKG.

L-Citrulline

SUPPORTS PROTEIN METABOLISM

100% Pure Powder

- Healthy Immune System Function*

Net Wt. 4 oz. (113 g)
