

Collagen is a vital building block of our bodies including skin, hair, nails, bones, and joints.\*\*

We believe that whole-food-based nutrition containing collagen is beneficial for looking and feeling your best.\*\* Compared to our ancestors, our diets today contain less collagen, and this natural protein has been removed by modern food processing. We are committed to providing products that help supplement and enrich your diet with collagen.

Vital Proteins' Collagen Peptides are sourced from bovine hides from South America to ensure a high quality source of this ancient nutrient. Collagen is the most abundant protein in the body, supporting the vitality of your skin, hair, tendons, cartilage, bones, and joints.\*\* Our formula combines collagen with probiotics, cocoa, blackberry, and coconut water without the need for additional sugars, sweeteners, or maltodextrin.
