■ PLACEBO ■ GNC THERMO IGNITER 12X

*In a randomized, double-blind, placebo-controlled study of 112 healthy volunteers, subjects taking the GNC vitamin and mineral blends for six weeks experienced significant improvements in serum levels of certain key nutrients compared to a placebo and a basic multivitamin formula based upon multivariate statistical analysis of a group of 9 vitamins (thiamin, niacin, riboflavin, pantothenic acid, biotin, folic acid and vitamins B-6 and B-12) and key antioxidants and carotenoids (a group of beta-carotene, alpha-tocopherol, selenium, lutein and lycopene). Statistical improvements in SF-36 Vitality and Mental Health scores were also observed compared to placebo.

**In a double-blind, randomized, placebo-controlled, cross-over study, 25 subjects exercised on a treadmill two times. On the first occasion, subjects took Thermo Igniter 12X 60 minutes before exercise. On the second occasion, they took a placebo. Subjects using Thermo Igniter 12X burned three times more calories before, 3% more calories during, and 12 times more calories for up to one hour after exercise compared to using placebo.
