

Suggested Use: For adults, take 1 softgel per day with a meal or as directed by your qualified healthcare professional.

NOTE: If you have a medical condition (especially kidney stones or dysfunction, hyperparathyroidism, hypercalcemia, lymphoma, or sarcoidosis), are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your healthcare professional before using this product.

Jarrow Formulas® Vitamin D₃ provides cholecalciferol, which is more biologically active than ergocalciferol (D₂). Vitamin D₃ is ultimately converted to its hormonally-active form, calcitriol, in the kidney. Calcitriol enhances dietary calcium and phosphorous absorption, stimulates the synthesis of osteocalcin (an important structural protein in bone), and supports a healthy immune response.*

Keep out of the reach of children.
