*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

ZMA® is a synergistic combination of Zinc and Magnesium designed to maximize absorption and promote recovery from exercise. Zinc plays a central role in the regulation of cellular growth and tissue repair, as well as the maintenance of a healthy immune system. Magnesium is essential for the maintenance of electrolyte balance, energy production and normal neuromuscular function. Because physical activity can increase the need for these two minerals, ZMA® is the ideal supplement to aid in their replenishment.*

SUGGESTED USAGE: As a dietary supplement, men take 3 capsules (women take 2 capsules) daily, preferably on an empty stomach, 30 – 60 minutes before bedtime. For best results, avoid taking with dairy or other calcium-containing foods or supplements. Consider taking this product in combination with NOW® D-Flame™, Celadrin® and TestoJack 100™.

ZMA®

Sports Recovery*

with Zinc, Magnesium & Vitamin B-6

90 Capsules
