

Suggested Usage: Take 1 softgel daily with a fat-containing meal.

Ubiquinol is the reduced and active free radical quencher form of Coenzyme Q10 (CoQ10).* CoQ10 is found in all cells of the body, with especially high concentrations in the heart, and is essential to mitochondrial energy production and functions as a powerful, fat soluble, free radical scavenger.* These properties make Ubiquinol an ideal supplement for the support of energy production and free radical protection in the heart, vascular structures, brain and neurons.* Ubiquinol has been shown to be highly bioavailable and the addition of MCT Oil (medium chain triglycerides) to this product naturally improves its solubility and enhances intestinal absorption, thereby creating a product with superior biological value.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.

Do Not Eat Freshness Packet.
Keep in Bottle.
