This premium hip and joint soft chew is a delicious alternative for dogs who have an aversion to pills. It is scientifically formulated with high-quality ingredients to support connective tissue and help maintain normal, healthy joint function and mobility. It includes beneficial glucosamine and chondroitin, structural components of joint tissue that help maintain joint function. This advanced formula also features MSM and hyaluronic acid. Hyaluronic acid helps to cushion joints. MSM contains sulfur, which is an important component of joint cartilage. Your pet will love the great-tasting savory beef flavor and the chewy texture!
