

Liver Detox™

SUGGESTED USE: Take 2 capsules once daily.

The liver is often thought of as the body's natural detoxifying organ. As part of the immune system, one of its main functions is to break down dangerous chemicals and clean out impurities. The liver also aids in digestion by processing nutrients and helping to maintain the body's metabolism.

Liver Detox is formulated to help protect the liver against free radical damage with powerful antioxidants.* It may also **help support daily liver functions such as handling glucose and assisting with bile secretion.***

30 Day Supply
