Certified Organic Maca Extreme[®]

Maca Extreme[®] is a highly absorbable 4:1 concentration of micro-pulverized maca root. Known for its ability to enhance energy, endurance, libido, and hormone balance, this maca is extra potent. From the Peruvian Andes, maca was sacred to the Incas and used as a food and medicine in South America for centuries.

In fact, Incan warriors would consume maca before long journeys and battles. Maca Extreme[®] also contains less starch than standard maca, making it ideal for those with difficulty digesting cruciferous vegetables.

The Sunfood Difference[™]

Our raw, organic, non-GMO Maca Extreme[®] is created using a low temp process of various colored fresh maca roots. The fresh roots are dried and ground into a very fine powder that creates a uniquely powerful maca product unlike any other. At 4:1 concentration of regular maca powder, a little Maca Extreme[®] goes a long way!
