PERFORMIX™
IRIDIUM™

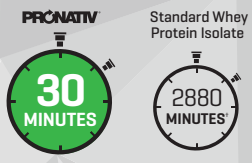
Formulated with Clean Undenatured Pronativ® Whey

Pronativ® is the purest whey protein available due to its unique, clean and low temperature extraction process. Proteins are extracted from top quality hormone-free milk to preserve it's properties without collecting the typical cheese residues, GMP, added ingredients and chemical agents found in the standard Whey Protein Isolate.

Clinically Proven to Achieve Full Muscle Recovery 96X faster than Standard Whey Protein Isolate

Pronativ® supports a supercharged 30-minute recovery time, compared to 48 hours with standard Whey Protein Isolate. The addition of our time-released ISO beads helps replenish key nutrients and extend the recovery benefits over multiple hours helping to combat muscle soreness and fatigue.*

RECOVERY TIME



Superior Protein Utilization vs. Standard Whey Protein Isolate‡

PERFORMIX IRIDIUM NATIVE ISO WHEY^{i}+ is the only protein on the market that contains Ganeden**BC^{30}** and Pronativ® Whey. The addition of Ganeden**BC^{30}** allows for improved protein utilization and absorption compared to standard Whey Protein Isolate while also aiding in digestion and immune support.‡

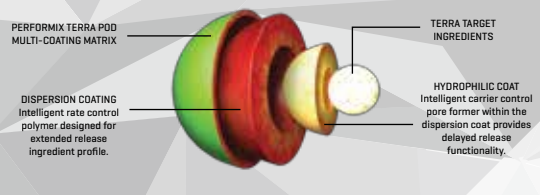
% PROTEIN UTILIZATION*‡

DRIVEN BY INNOVATION. DEFINED BY PERFORMANCE.

Every PERFORMIX product is driven by our TERRA Intelligent Dosing™ technology, utilizing best in class bioavailability enhancers and intelligent dosing delivery to help maximize every single molecule's potential... period. To out perform, out last and out do.

TERRA Coating is an innovative Multi-Coating Matrix (MCM) technology that targets pH extended release functionality. This offers an advanced delayed release coating system designed with multiple release points to help maximize ingredient performance.

ADVANCED MULTI-PHASE EXTENDED RELEASE



TRI-PHASE AMINO RELEASE

Tyrosine	1310 mg
Valine	1390 mg

SUGGESTED USE: Mix or blend 1 scoop of **Performix™ NATIVE ISO WHEY^{i}+** with 8 ounces of cold water, juice or milk. For best results, take **Performix™ NATIVE ISO WHEY^{i}+** within 30 minutes after working out. **Prior to each use, shake container vigorously to ensure evenly dispersed beads. Please read the entire label before use.**

Ingredients: Pronativ® Native Whey Protein, Natural and Artificial Flavors, Marshmallows [Sugar, Modified Corn Starch, Corn Syrup, Dextrose, Gelatin, Sodium Hexametaphosphate, Artificial Color (red 40, yellow 6, blue 1, yellow 5), Artificial Flavor, Natural Flavor], Amino Acid Blend [L-Leucine, L-Isoleucine, L-Valine], Soy Lecithin, Xanthan Gum, Sea Salt, Sunflower Oil, Medium Chain Triglycerides, Fractionated Palm Oil, *Bacillus coagulans GBI-30 6086*, Sucralose, Microcrystalline Cellulose, Hydroxypropyl Methylcellulose, Acesulfame Potassium, Ethylcellulose, FD&C Yellow # 5, FD&C Blue # 1.

Contains: Milk, Soy.

This product was produced in a facility that may also process ingredients containing milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat and soybeans.

▲ Clermont Ferrand University (France) conducted a clinical study to evaluate the effect of Pronativ®, native whey protein vs WPI associated with recovery. The population consisted of 36 healthy and active males from 18-35 years old with a body weight of 65-80KG. They followed a 12 week training program with a supplementation of 15g of Pronativ® protein 5 times per week. Muscle power recovery was evaluated before, and 30min, 60min, 24h and then 48h after the training session. After 12 weeks of training, the group supplemented with Pronativ® recovered its initial muscle power output 30 min after training while the group taking WPI recovered its muscle power 48 hours after training.

‡Ganeden**BC^{30}** was shown in a randomized, double blind, placebo-controlled cross-over study conducted by the University of Tampa to improve protein utilization. This study demonstrated a 23% increase in leucine absorption for whey protein combined with Ganeden**BC^{30}** as an indicator for increase protein absorption and utilization.
