

Pre-Seed™ Fertility-Friendly Personal Lubricant

What Makes Pre-Seed Lubricant Unique?

- ✓ Clinically shown to be fertility-friendly lubricant
- ✓ Isotonic and pH balanced to mimic fertile fluids
- ✓ Natural feeling

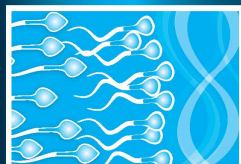

Sperm Moves Freely Through Pre-Seed.

Pre-Seed Fertility-Friendly Personal Lubricant is a patented formula that mimics your own fertile fluids so sperm can swim freely.

Other Lubricants Limit Sperm Motility.

Clinical studies show that other lubricants can limit sperm motility.

That is why fertility experts recommend using Pre-Seed lubricant to optimize natural fertility.

Visit preseed.com for helpful pregnancy resources and success stories.

When trying to conceive, consult a physician if you are not pregnant after 6 months of product use.

USES: Pre-Seed Fertility-Friendly personal lubricant is for use when trying to get pregnant. Pre-Seed lubricant mimics your own fertile fluids to create the optimal environment for sperm on their journey. Apply Pre-Seed lubricant to vaginal or penile tissues to provide safe lubrication when trying to conceive.

Compatible with latex and polyurethane condoms.

Warning: Pre-Seed lubricant does not harm sperm. It is not a contraceptive.

1 tube of lubricant

9 disposable applicators

DIRECTIONS: Pre-Seed lubricant best mimics your fertile fluids when applied inside the vagina near the cervix, prior to intercourse. Do not store product in applicator for more than 30 minutes prior to use. See enclosed insert for complete directions.

No patient data are available regarding viable pregnancies or birth outcomes in patients using this product.
