

# Supplement Facts

Serving Size 4 Capsules  
Servings Per Container 30

Amount per serving	% Daily Value	
Magnesium (as Magnesium Aspartate)	90mg	22%
Zinc (as Zinc Aspartate)	30mg	200%
Vitamin B6 (as Pyridoxine Hydrochloride)	10.5mg	525%
D-Aspartic Acid	1.48g	*
Tribulus Terrestris (Fruit) (Containing 20% Protodioscin)	1g	*
DIM (Diindolylmethane)	100mg	*

\*Daily value not established.

Other ingredients: Microcrystalline cellulose, magnesium stearate (vegetable source), gelatin.

Made in Canada for:  
**Red X Lab™**

## INGREDIENTS THAT WORK:

### HIGH PROTODIOSCIN TRIBULUS TERRESTRIS

**Andro** uses a high quality tribulus terrestris extract that contains an astounding 20% of protodioscin, the most potent of the steroidal saponins contained in tribulus. This specific saponin has the ability to increase the concentration of androgen receptor in cells, thus increasing their sensitivity to androgens like testosterone. An increase in testosterone supports the building of lean muscle mass and promotes libido. Protodioscin also triggers the release of nitric oxide (N.O.) in corpus cavernous tissue.†

### 3,3'-DIINDOLYLMETHANE (DIM)

DIM is produced from the digestion of indole-3-carbinol (I3C), a chemical compound found in various cruciferous vegetables such as broccoli, brussels sprouts, cabbage and cauliflower. DIM could help to balance the estrogen and testosterone levels by breaking down estrogen in beneficial metabolites that have antioxidant properties. Simultaneously, DIM could also restrict the level of harmful estrogen metabolites to help maintain a healthy sex drive in men.†

# ANDRO

**RED X LAB™**  
REACHING YOUR GOALS

## TESTOSTERONE MODULATOR†

**200** MG PROTODIOSCIN  
PER SERVING

**1480** MG D-ASPARTIC  
PER SERVING

**100** MG DIM  
PER SERVING

DIETARY SUPPLEMENT 120 CAPSULES

## INGREDIENTS THAT WORK:

### D-ASPARTIC ACID

D-Aspartic Acid (D-AA) is a non-essential amino acid that is naturally produced in the human body at functional levels. Recent studies have suggested that D-AA supplementation could help to promote GABA and dopamine levels. Others have also shown that D-Aspartic Acid supplementation significantly increases the release of LH (luteinizing hormone) and testosterone.†

### ZINC, MAGNESIUM, VITAMIN B6

Used by athletes all over the world, Zinc, Magnesium and Vitamin B6 are critical compounds when it comes to promoting adequate recuperation. By helping the body achieving deeper levels of "Rapid eye movement" (or REM) sleep phase, these components are the perfect recovery aid! Zinc, Magnesium and Vitamin B6 are also helpful in promoting strength, enhancing hormonal profiles and testosterone levels. **Andro** contains just the right combination of these key components to support proper recovery.†
