**RESEARCH-BACKED INGREDIENTS. CLINICAL DOSES. FULL TRANSPARENCY. ALL POWER.**

New Amino Max Black Onyx<sup>®</sup> is a powerful musclebuilding BCAA and amino formula built with scientifically advanced ingredients to empower strength, muscle recovery, ATP production and electrolyte replenishment. The unique formula features an advanced 2:1:1 BCAA blend delivering three forms of L-leucine, the most anabolic BCAA.<sup>▲</sup>

#### ▶ Supercharged Strength & Recovery

Amino Max Black Onyx<sup>®</sup> delivers a superior 8g of BCAAs, supplying a researched 4g dose of L-leucine, plus it's armed with glutamine and pure L-citrulline. Many competitors only include a supportive dose of L-citrulline malate which provides an inferior dose of true L-citrulline. What's more, Amino Max Black Onyx<sup>®</sup> also features a researched dose of elevATP<sup>®</sup> to boost ATP production and increase strength.<sup>▲</sup>

#### ▶ Powerful Dose of elevATP<sup>®</sup>

This clinically studied key ingredient provides your muscle cells with the edge they need to help you set a new personal best. Researchers believe that elevATP<sup>®</sup> increases mitochondrial ATP production to increase muscular energy when the going gets tough. In fact, recently published human clinical research has indicated that elevATP<sup>®</sup> can increase the body's ATP levels to help you train longer and with more intensity.<sup>▲</sup>
