**HUMBLE BEGINNINGS:** Nubian Heritage is the brainchild of two New York street vendors. In 1992, fresh out of college and without jobs, Rich and Nyema embarked on a mission to produce luxurious natural products from traditional African recipes with organic and fair trade ingredients. Today Nubian Heritage offers hundreds of culturally authentic natural products inspired by global ancient healing philosophies. Although Nubian Heritage products are no longer made in bath tubs, little else has changed; the company still makes its products itself, still uses fair trade and organic ingredients and still invests in community commerce.

**HERITAGE:** Black seed oil, *Nigella Sativa*, can be traced back more than 3000 years to the Assyrians and ancient Egyptians. Discovered in the tomb of King Tutankhamen, Black seed oil was reportedly used by Queen Nefertiti to maintain her exquisite complexion. Black seed earned the Arabic approbation "habbatul barakah" the seed of blessing for its powerful curative properties in traditional medicine. Honey has been used historically as a natural antiseptic in balms and salves to comfort and soothe skin, reduce redness and heal wounds.

**SKIN TYPE:** Sensitive, All Skin Types

**USE:** Daily use will strengthen the most fragile and sensitive skin.
