

Gelatinized Maca Capsules

Maca root was a sacred crop of the Incas, praised for its ability to enhance energy, endurance and strength. In more recent times it's also been studied for beneficial effects on hormone balance, libido, and fertility.

Our Gelatinized Maca Powder is a specialized form made for easier digestion than raw powder.

An extrusion process breaks down hard to digest starches and enhances Maca's bioavailability without compromising its beneficial properties. The very fine powder is then encapsulated in a vegan friendly capsule.
