

New Chapter's **Blood Pressure Take Care™** delivers a safe, effective, and *clinically studied* all-natural extract and combines it with additional natural cardiosupportives for optimal blood pressure balancing effects.* Healthy blood pressure is vital for maintaining a healthy cardiovascular system. Other natural supplements are available, but they may affect a single pathway, possibly limiting their efficacy because blood pressure needs to be maintained by balancing multiple mechanisms. **Blood Pressure Take Care targets multiple pathways** to safely maintain blood pressure already within normal levels.*
