

**Directions:** In a cup of hot water steep the Dunker and dunk up and down. Dunkers are reusable. Dry on saucer and reuse up to 3 times.

Chaga Dunkers are made with wild Canadian & Siberian chaga. Chaga is a potent source of antioxidants and nutrients. Chaga contains powerful, biologically active compounds such as beta glucan, sterols, polyphenols, germanium, betulin, and betulinic acid, the benefits of which are well published. Chaga Dunkers wild forest tea is a source of vital trace minerals such as copper, iron, magnesium, and potassium, as well as B vitamins. It is also a top source of antioxidant enzymes, especially SOD (superoxide dismutase). Chaga has the highest ORAC and SOD levels of any wild plant and has been used as a whole food for centuries. Do not accept cheap imitations made from vat-grown chaga.

These reusable, pyramid-shaped tea bags provide excellent infusion efficiency, thus releasing the exotic taste and aroma found only in chaga. This pyramid-shaped tea bag is made from biodegradable fabric and is compostable.

# Chaga Dunkers™

Wild Canadian & Siberian chaga with birch bark

## Wild Forest Tea

12 unbleached reusable tea bags

Micropulverized  
for ideal absorption

### Product Information

Serving Size: 1 tea bag  
Servings Per Container: 12

Ingredients: wild, raw micropulverized Canadian chaga, wild, raw micropulverized Siberian chaga uniquely prepared for high potency

With Chaga Dunkers you can dunk and dunk again. Save money and enjoy all the benefits of wild chaga in organic tea bags which are safe and easy to use and reuse. Since our wild chaga is carefully cleaned, specially and uniquely prepared, then micropulverized, you gain all possible benefit from this rare, wild survival food. Large chunks commonly available from unknown sources are difficult to use and extremely wasteful of this valuable and rare, wild forest treasure. We carefully ensure that all of our rare chaga is never over-harvested or improperly handled. Conservation of this magical resource is one of our major concerns. Making it easy for you to use and enjoy for your benefit is our other most important concern.

A pouch of chaga was found on Otzi the Iceman, dating from approximately 5,000 years ago. Strength and energy were just as important for human survival then as they are now. So, be like Otzi and climb your mountains in life with our easy-to-use Chaga Dunkers wherever you go—and whatever you do. Use our chaga every day. You'll notice the difference.
