

Everyday activities can leave you less than fresh, and regular soaps can disrupt the delicate pH of intimate skin, causing dryness and sensitivity. With chamomile, water soluble collagen and Vitamin E, our feminine wash gently cleanses and rejuvenates intimate skin while supporting its natural pH to leave you feeling fresh and confident all day.

Leading gynecologists recommend an all-natural, low pH gentle wash to support the delicate environment of intimate skin.

[DIRECTIONS]

For external use only. Apply a small amount to intimate skin area, then rinse thoroughly. Gentle enough for daily use.

MADE IN USA
