StressKiller® is Made in the USA in a cGMP-certified and NSF Sport-certified facility.

EFFECTIVENESS + QUALITY StressKiller's ingredients are optimized for quality and bio-availability. According to one of the country's leading medical institutions, "Vitamin B-12 and other B vitamins play a role in producing brain chemicals that affect mood and other brain functions." So StressKiller has B-12, B-6, and folate (B-9), and the B-12 is the premium methylcobalamin variety. StressKiller also uses the more bio-available citrate form of Magnesium, and its Vitamin E is the naturally-sourced d-alpha tocopherol.
