75% FAT, 100% AWESOME

We're not saying you have to eat 75% of your calories from fat, all the time. But, if you do want to...we've got your back. Finally, you can just get on with moving toward your goals, without worrying about how you're going to get into - and stay in - ketosis.

No more calculating percentages, no more working out complex macronutrient ratios... we've done all that for you. Because we get it - you just want to be IN ketosis, not spending every waking moment thinking about it.

Here's the thing: if you're a busy person (and let's face it, who isn't these days?), you don't necessarily want to spend your precious spare time nerding out on the mechanics of ketosis - you just want to BE. IN. IT! Burning fat for fuel...effortlessly... efficiently... and most importantly, deliciously. We get it. We hear you!

Welcome to Ketologie. Where we do the math, so you can get back to being awesome.

PRO TIP: Use our amazing keto shake mix to make creamy low carb lattes, pancakes, chia puddings & more. Go to www.ketologie.com or join our facebook community for recipes and handy hints and tips!
