**RESEARCH-BACKED INGREDIENTS. CLINICAL DOSES.
FULL TRANSPARENCY. ALL POWER.**

New Shatter™ Neuro N.O. Black Onyx® is a powerful pre-workout pill built with scientifically validated key ingredients to unleash explosive energy, mental focus, performance and muscle pumps. It's an instant-impact neurosensory you feel minutes after a single serving, making it the most superior pre-workout pill in the game.▲

► **Superior Pumps, Performance & Ultimate Neurosensory**

Shatter™ Neuro N.O. Black Onyx® features precision doses of Japanese knotweed and pomegranate, plus an advanced nitric oxide booster, Nitrosigine®, for more muscle pumps. What's more, our formula is the first pre-workout pill to feature Alpha-GPC, TeaCrine®, huperzine and lion's mane as part of the superior neurosensory blend.▲

► **Clinically Researched Key Ingredients**

In a scientific study, subjects using this exact dose of Nitrosigine® found in Shatter™ Neuro N.O. Black Onyx® had a significant increase in mean arginine levels in just one hour. With more arginine in the blood, your body can make more nitric oxide. That's why, in the same study, subjects who supplemented with this key ingredient had significant increases in salivary nitrite levels – a key marker of nitric oxide production and more N.O. means better muscle pumps!▲
