ON BOTTOM OF
BOTTLE.

Ionic Magnesium is a rich, concentrated liquid dietary supplement that provides magnesium in an ionic form—the form most widely recognized by the body.[†] Our proprietary process ensures maximum absorption, while the balanced liquid form provides safety and flexibility.[†] Magnesium is required for cellular energy production. It participates in over 300 biochemical pathways in the body, including cardiovascular function.[†]

ConcenTrace® is a trade name for concentrated sea minerals from the Great Salt Lake.

Suggested Use: Using the metered dropper, take 4mL (4 full droppers) daily with juice or food to mask the concentrated mineral flavor. Do not refrigerate.
