

Directions: Take one teaspoonful or more daily. Drizzle over nut butters for a delicious treat or on cheese or natural ice cream.

Known since ancient times, chaga is a powerful growth on birch trees which is rich in a wide range of nutrients and phytochemicals. An ideal way to get your daily energy naturally, ChagaSyrup is free of caffeine and other stimulants. The energy is natural from the sun-ripened chaga, plus wild, raw honey and wild, raw grape extract. Chaga is a dense source of natural sterols, B vitamins, minerals, and the all-important enzyme superoxide dismutase (SOD). Use ChagaSyrup daily, and feel the raw, wild difference. It's delicious and powerful: enjoy.
