

The major fatty acid in coconut oil is presently being acknowledged for its health properties. The healthy saturated fat in coconut is comprised of MCT (Medium Chain Triglyceride). MCT Oil from Coconut oil is easy to take, beneficial to your health and may help you lose weight.†

RapidFire MCT Oil is two-fold: it's uniquely metabolized and it's easily digested. Coconut oil is not stored in your body like other fats, its medium-chain fatty acids are quickly broken down to dispense immediate energy. When your metabolism speeds up, your cells will also function with better efficiency, which may boost your immune system.‡

The coconut oil's satiation effect will be in full force, reducing your appetite and increasing your metabolism. Enjoy the benefits of RapidFire MCT Oil combined with a healthy diet and exercise program and be one step closer to looking and feeling you best!‡
