

Vitamin E is an essential nutrient and is the body's primary, fat-soluble antioxidant. Vitamin E provides nutritional support for the immune system. It helps fight cell-damaging free radicals that cause oxidative stress in the body, which may contribute to the premature aging of cells. This formulation provides a natural source of Vitamin E as d-Alpha Tocopherol, and mixed Tocopherols including d-Gamma, d-Delta and d-Beta Tocopherols. It is offered in oil-based softgels to promote optimal absorption and assimilation.*

Carefully Manufactured for:
Solgar, Inc.
