

Vital Proteins' Matcha Collagen is an antioxidant powerhouse for a natural spark of vitality.\*\*

We believe that whole-food-based nutrition containing collagen is beneficial for looking and feeling your best.\*\* Compared to our ancestors, our diets today contain less collagen, and this natural protein has been removed by modern food processing. We are committed to providing products that help supplement and enrich your diet with collagen.

An antioxidant powerhouse, our matcha is an authentic and high-quality superfood sourced from pristine Japanese farms.

A great coffee alternative thanks to its green tea roots and amino acid L-Theanine, matcha is perfect for a clean, natural pick-me-up. Collagen is the most abundant protein in the body, supporting the vitality of your skin & hair, as well as bones & joints.\*\* Plus, it's great tasting with just a touch of sweetness thanks to coconut water.
