## Patented Technology

- **Superior Absorption**
- **Maximized Bioavailability**
- **Optimized Effectiveness**

Curica<sup>®</sup> Turmeric utilizes a patented colloidal dispersion technology that dramatically improves curcuminoid absorption and bioavailability.

**1** To start, turmeric extract is micronized into tiny particles

**2** Next, turmeric extract is micro-encapsulated with plant starch

**3** Turmeric extract is now easily dispersible in solution

**4** Curcuminoids are now more absorbable and bioavailable
