HOW DOES IT WORK?

The creators of CELSIUS have developed a new carbonated, pre-workout drink for the athlete who wants to take it to the next degree. HEAT turns on thermogenesis, a process that boosts your body's metabolic rate. Turning up the HEAT with clinically proven CELSIUS' proprietary MetaPlus® formula, blasts fat^{††} with 300mg of caffeine for extreme energy.^{††}

CELSIUS HEAT's great tasting carbonated formula with 2,000 mg of added citrulline is also designed to deliver the additional ingredients you deserve from your pre-workout drink.
